RE: Trademark search of **EVERGLEEM (AND VARIATIONS THEREOF)**.

Thank you for your order. Enclosed is a computer search report of the proposed trademark:
EVERGLEEM (and variations thereof) in all International classifications.

The search is an alphabetical listing of the currently registered and renewed trademarks in the United States Patent and Trademark Office (PTO), and the Offices of the Secretary of State in all US states, as of May 17, 0000 pertaining to your trademark proposal mentioned above. The search report also shows the pre-pending mark applications and the published pending mark applications which have been approved for registration in the Official Gazette of Trademark (OGT). The OGT is a weekly publication provided by the Department of Commerce for the public to view and/or oppose the new marks within thirty days from the date of publication. Any marks retrieved that are exact or similar to your proposed mark have been further researched. This information is broken down by status and will appear in the detail section of the report, found after the alphabetical listings.

The search results indicate the following:

EVERGLEEM appears not to be a currently registered federal trademark with the U.S. Patent & Trademark Office under any International class. However, there are several similar federal trademarks, including **EVERGLEAM**.
(Please see detail section).

EVERGLEEM appears not to be a currently registered state trademark with the Offices of the Secretary of State in any US state. However, there are several similar state trademarks. (Please see detail section).

EVERGLEEM appears to have several similar matches in our Common Law search of company names.
(Please see detail section).

*Please see detail section for Domain Name, Social Media Name and World Wide Web search results.

Please note that I have enclosed detailed information on the registered trademarks similar to your proposed mark for your review. You must refer to the enclosed printouts for similar variations which may or may not be in conflict to your proposed mark.

**For the US Patent and Trademark Office to find a conflict, the marks need not be identical and the goods and services do not have to be the same. They determine whether there would be likelihood of confusion, that is, whether relevant consumers would be likely to associate the goods or services of one party with those of another party. The principal factors considered are the similarity of the marks and the relationship between the goods and services identified by the marks.

Trademark application forms may be obtained by writing or calling the Commissioner of Patents & Trademarks, Washington, DC 20231 - (703) 308-9000. For a discounted registration fee, applications may be submitted online by visiting <http://www.uspto.gov>.

If we can be of any further assistance, please contact us at (201) 825-1060.

Sincerely,

Toni Lyn - Research Manager
